# Albert (Haowei) Qiu

+852 6759 9932 | albertqiu17@gmail.com
Portfolio: www.albert-designer.com
Career Direction: AI Project & Product Operations
Availability: Up to 5 days/week

## Personal Strengths

Background in interaction design, combining product thinking with software prototyping. Quick to learn and apply advanced AI tools to speed up research, documentation and content creation. Works with product, engineering and marketing teams to test and deliver solutions.

## Education

**The Hong Kong University of Science and Technology** Aug 2026 - Jan 2028
MSc in Technology Leadership and Entrepreneurship
Coursework: AI Technology Innovation; AI Product Marketing; Python; LLM API Workshop.

**China Jiliang University** Sep 2022 - Jun 2026
Bachelor of Engineering in Industrial Design | Score: 90.22/100
Coursework: Interaction Design; User Research; Product System Design.

## Internship Experience

**MCJ Design (Hong Kong)** Jun 2026 - Present
Product Management Intern - AI & Digital Products
- Defined AI use cases and MVP scope in PRDs; aligned product and marketing teams on concept validation.
- Researched audiences, content formats and promotion channels to recommend launch messaging; used AI tools to prepare proposal decks and client-facing materials.

**Westlake University - Research Lab** Jan 2025 - Jun 2025
Interaction Design & Product Intern
- Translated user tasks into interaction flows and test plans; clarified interface requirements with engineers.
- Collected lab user feedback and refined workflows, improving the System Usability Scale score by 18 points.

**Zhejiang University - Research Lab** Jul 2024 - Jan 2025
UI/UX Design Intern - Digital Platforms
- Turned interviews and usability tests into an improvement backlog; aligned Figma prototypes and UX specifications with product and front-end teams.
- Cut critical-alarm identification time by approximately 35% in task-based user tests.

**Hangzhou Asian Games Organising Committee** Sep 2023 - Oct 2023
Design & Stakeholder Coordination Intern
- Coordinated cross-team requests for promotion and operations; delivered 50+ brand-compliant design sets.

## Projects

**Mochi Island - macOS AI Companion** Sep 2026 - Present
AI Product Research, UX & Software Prototyping (Team Project)
- Analysed four competing apps and developer interview feedback to prioritise AI-agent status updates and notifications.
- Designed thinking, waiting for input, completed and failed states, with concurrent-task tracking.
- Integrated a Swift overlay, web UI and local Python engine; shipped macOS v1.0 in approximately 11 days using AI-assisted development.

**VANTA - AI Vision Fish** 2026
- Defined an AI vision workflow from image input to result feedback; built and tested a web control prototype with live status and alerts.

## Awards

MUSE Creative Awards 2025 - Gold; NY Product Design Awards 2025 - Silver; London Design Awards 2025 - Silver; Hong Kong Contemporary Design Awards 2024 - Bronze; G-Cross Award 2024 - Bronze; Jinjiang Cup - National Best Creativity; 19th Challenge Cup - Provincial Silver; 16th Lanqiao / Zhongshu Cup AIGC - National Third Prize.

## Skills

**AI tools:** Cursor/Codex (coding); Figma Make (prototypes); Seedance (AI video); Ollama (local models).
**Product & data:** Design thinking; PRDs; user flows; usability testing; Figma; Excel (pivot tables); Python.
**Languages:** English (fluent); Cantonese (fluent); Mandarin (native).
